

## **WHAT THEY'RE SAYING ABOUT OUR STAINLESS STEEL...**

“With the protective cover, the risk for inadvertent injuries to myself or to operating room staff is decreased significantly...From the standpoint of surgical efficacy, these knives are unsurpassed in sharpness and durability.”

Robert G. Burlingame, M.D., F.A.C.S., P.A.  
RGB Eye Associates, P.A.  
Sherman, TX

“My incisions seal better with this blade than with any other metal blade I have tried. I would strongly recommend this knife to my colleagues doing clear corneal surgery.”

Fritz Bruening, M.D.  
Park Eye and Surgi-Center  
Flint, MI

“This should be a cost saver to high volume surgical centers such as our practice and we feel that you have a real winner. I would recommend the Diamatrix surgical knife to anyone who does cataract surgery.”

Jerome D. Poland, M.D.  
Clinical Associate Professor  
University of Minnesota

“I feel the wound architecture is comparable to my diamond knife. I am very pleased with the blades and use them exclusively.”

Rick Proctor, M.D.  
Kamloops, British Columbia

“The ultra sharp blade creates a reproducible and clean incision each time. The blade and handle are very ergonomically designed. And the safety features are most appreciated. I can highly recommend this product without reservation.”

Robert O. Westcot, II, M.D.  
Biddeford, ME

“It is the sharpest steel blade that I have ever used and the blades stay sharper than any blade I have ever reused.”

John E. Downing, M.D.  
Downing-McPeak Vision Centers  
Bowling Green, KY

“I am happy to recommend your product to any surgeons who are looking for a high quality surgical steel blade, and I urge surgeons who are currently using diamond blades to give them a try.”

Vasilis Makris, M.D.  
Muncie, IN

“Your knives are consistently well made and hold their edge extremely well. Our techs appreciate the protective sleeve which can be retracted or replaced easily with one hand.”

Michael E. Deitz, M.D.  
The Columbia River Eye Center  
Pasco, WA

“Great blade. Sharp. Accurate. Reliable. I highly recommend it.”

Paul T. Urrea, M.D.  
White Memorial Medical Center  
Los Angeles, CA

“We are completely satisfied with the quality and sharpness...The quality of the blades has always been excellent and we especially like the retractable design for safety.”

Ben R. Lowery, M.D.  
Lowery Eye Clinic  
Searcy, AR
